Mobile: +91-9286281841

Skills

- **Languages:** C, C++, Python, Java, JavaScript
- **Web Technology:** HTML, CSS
- **Database:** SQL, MongoDB
- **Tools/Platforms:** Git, GitHub, Linux
- **Soft Skills:** Problem-Solving, Critical Thinking, Communication, Collaboration, Time Management,
- **Additional Skills:** Prompt Engineering , Data Handling on Excel

Projects

- **Water Quality Monitoring System** — September 2025 – November 2025
  - Developed an IoT-based water quality monitoring system using an **Arduino Uno** and **turbidity sensor** to detect and monitor water clarity.
  - Integrated the sensor with Arduino to collect turbidity readings and provide real-time monitoring of water quality conditions.
  - Designed a simple and cost-effective solution for identifying potentially contaminated or unclear water.
  - **Tech:** Arduino Uno, LCD Display 16x4, Turbidity Sensor, Embedded C/C++
- **Vendor Cart – E-Commerce Platform** — October 2025 – January 2026
  - Developed a full-stack e-commerce platform that enables vendors to manage products, inventory, pricing, and customer orders through a centralized dashboard.
  - Implemented product browsing, cart management, user authentication, order placement, and vendor-side product management features.
  - Designed a responsive and user-friendly interface for smooth interaction across desktop and mobile devices.
  - **Tech:** React.js, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript
- **Personal Portfolio Website** — March 2026 – April 2026
  - Designed and developed a responsive personal portfolio website to showcase projects, technical skills, certifications, achievements, and academic profile.
  - Created a clean, modern interface with structured sections for projects, skills, education, and contact information.
  - Optimized the website for smooth navigation and a consistent user experience across different screen sizes.
  - **Tech:** HTML, CSS, JavaScript, React.js
- **Facial Authentication System** — April 2026 – Ongoing
  - Developed a face recognition-based authentication system to identify and verify users through facial features.
  - Implemented real-time face detection and recognition using computer vision techniques for secure and automated user authentication.
  - Designed the system to provide fast and reliable identity verification while reducing dependency on traditional password-based authentication.
  - **Tech:** Python, OpenCV, Face Recognition, Computer Vision, Machine Learning

Certificates

- Science Olympiad — September 2023
- AWS Job Simulation — October 2025
- Upper Intermediate English (Tech Veda) — January 2026
- Effective Time Management (MOOC) — November 2025
- Infosys SpringBoard Python Introduction — November 2025
- Upper Intermediate English (saylor.org) — January 2026
- Infosys SpringBoard CyberSecurity Introduction — March 2026
- Computer Programming in C — May 2026
- Oracle Data Platform 2025 Certified Foundations Associate — June 2026
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — June 2026
- Python Essentials 1 (Cisco Networking Academy) — August 2026

Achievements

- **Innovation & Tech Hackathon - Runner Up** — September 2025
  Secured **Runner-Up position** in the **Innovation & Technology Hackathon** by presenting an innovative technology-based solution and demonstrating strong problem-solving, teamwork.
- **Google Arcade** — February 2026
  Google Cloud Arcade — Successfully completed hands-on cloud challenges and gained practical experience with Google Cloud technologies.
- **Community Development Program (TOI)** — June 2026
  Community Development Program environmental awareness sessions for school students during summer break, promoting sustainability, waste management, and responsible environmental practices.

Education

- **Lovely Professional University** — Phagwara, Punjab
  *Bachelor of Technology - Computer Science and Engineering AI &ML : **CGPA: 7.98*** — *August 2025 - Present*
- **St. Francis Convent Sr. Sec School**
  Bareilly, Uttar Pradesh
  *Intermediate: **Percentage: 79*** — *April 2024 - March 2025*
  *Matriculation: **Percentage: 83*** — *April 2022 - March 2023*
